

HOW•TO WASH

A COWBOY KIMONO

Before your Cowboy Kimono is delivered, the paint is allowed to cure for 24 hours. Then the garment is turned inside-out and ironed to heat-set the paint. So, when the dirt or stench is too much, go ahead and give it an occasional good wash.

- 1** **TURN** the denim inside-out.
 - 2** **WASH** on normal setting using mild soap.
 - 3** **DRY** on low/gentle cycle or line dry.
- WOW!** The dryer heat-sets the paint even more!
- !** *Never touch paint directly with an iron.*
